

SAT-B09 : The Equity, and Inequity, of Complete Streets

Saturday, October 21, 2017

2:30 PM - 4:00 PM

Room: 409

Learning Objectives:

1. Learn how our transportation system's funding, design and maintenance exacerbates and promotes systemic inequities.
2. Understand how communities across the country are using a Complete Streets approach to reduce the embedded inequities in the transportation system.
3. Explore how landscape architects helped shape an innovative, low-cost Complete Streets grant program in Washington State, with lessons that can be applied nationally.
4. Gain insights into the strategies and tactics used by local Los Angeles-based transportation advocates to move beyond "Complete Streets" to create equitable, inclusive "complete communities."
